DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114.

Applicant's submission filed on February 10, 2004 has been entered.

Allowable Subject Matter

2. Claims 3, 8-14 and 17-24 are allowed.
3. The following is an examiner's statement of reasons for allowance: Reasons for allowance of claims 3, 8-14, 17 and 18 are given in the previous office action. New independent claim 19 is allowable because it recites that the intermediate cylindrical portion includes a first part having a substantially constant diameter and a second part having at least one preformed protrusion engaging the core for holding the core in place to inhibit movement of the core. The closest prior art discloses protrusions that are used to inhibit axial movement but fails to disclose or suggest the protrusion engaging a molded core in combination with a part having a substantially constant diameter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
